MANAGER ENGINEER POSITION

CODING CHALLENGE

ALEXANDRE ROSA

MY CONSIDERATIONS

INTERCOM

I HAD HAVE FUN DEVELOPING THIS
TEST. ENJOYED A LOT AND I HOPE
THAT I ACHIEVED THE GOALS.

WHY I PICKED PYTHON ?

INTERCOM

A stylized illustration of a man with dark hair and glasses, wearing a dark shirt, looking down at a laptop screen. The background is dark blue.

WELL, I PICKED PYTHON BECAUSE IS SIMPLE AND EASY
TO USE AND MANIPULATE VECTORS AND LISTS.

MY SOLUTION.??

INTERCOM

I USED A BASIC SOLUTION APPLYING A RECURSIVE APPROACH TO READ A SUBSET OF ARRAYS. I DID IT, BECAUSE I THINK THAT IS ELEGANT AND MORE CLEAN. LESS IS MORE :)
